ALL HAIL THE NEW KINGS OF DENMARK!

- This is a quote from one of the leading rock magazines in the world, Classic Rock Magazine (UK), they reviewed the debut album from 2012. Now, the band is back with a vengeance with the second album 'Glorified'.

St. Prostitute is a Danish rock act with a strong fascination for rock 'n' roll and the times when rock stars were really rock stars. With huge egos, tons of guitars, hooks, licks and screaming vocal in the power energetic music the band is ready for the next quest - to conquer the world.

In 2010 St. Prostitute toured the US and played legendary venues like Whiskey A Go Go, Viber Room and Wasted Space, and in 2011 St. Prostitute had the honor of supporting Pretty Maids in front of 12.000 people, in the very heart of Copenhagen. In 2012 the band released the critically acclaimed debut album 'Here Come The Prostitutes'. Several magazines and webzines had the album on a 'Best Of 2012' list. Furthermore 3 songs from the album appeared on different UK compilations, like Classic Rock Magazine's 'Best of 2012'.

The foundation of the brand new album "Glorified" surfaced in the summer of 2014, when the band was in a very creative period and a lot of new songs were written. It was from the early stage very clear that the raw, powerful and 'live-feel' was to be captured on tape. The obvious choice was to team up with a friend of the band, producer and studio owner of Lobster Studio Rune Buck. He has a certain ability to catch that vibe. The album 'Glorified' is the result, which is a full frontal attack with loads of up-temp songs with great hooks, licks and melodies.

'Glorified' is mastered in Lurssen Mastering, Hollywood by Rueben Cohen (Foo Fighters, Incobus, Rob Zombie, Pharrell, Bruno Mars etc.). One of the main reasons why Mr. Cohen chosen is due to his ability to get a modern touch in a classic rock act like St. Prostitute.

'Glorified' will be released worldwide by Mighty Music on October 9th. 2015!
